1 Using a tail comb, separate out the top section of your hair. Hint: Your hair will go up easier if it's not freshly washed.

→

2 Pull this section into a high ponytail on top of your head. Secure with a bungee band, a ponytail holder with a hook at each end.

↪

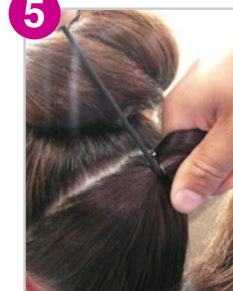

3 Smooth the front of the ponytail and spritz with hairspray.

→

4 Pin the tail out of the way.

→

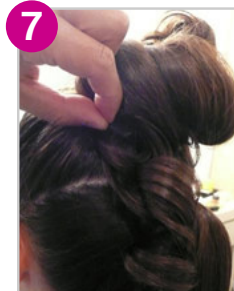

5 Make a second ponytail directly below the first one, using a bungee band again.

↪

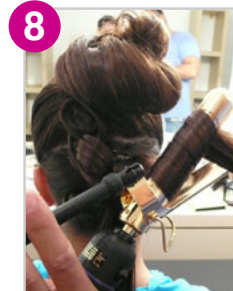

6 Separate out a small section from the base of the lower ponytail. Curl with a one-inch barrel curling iron.

→

7 Slip curl out of the iron, then twist and secure it with a couple of bobby pins, letting the end of the curl hang free.

→

8 Take another section from the lower ponytail, curl and pin. Repeat until the lower ponytail is all curled and pinned.

↪

9 Now, repeat on the top ponytail.

→

10 Twist ribbon or beads through curls, then pin in fresh or faux flowers.

→ finished!
